Disclaimers

Your provider may recommend additional services that must be scheduled or requested separately. The Good Faith Estimate does not include additional fees that can be incurred during the course of treatment, such as cancellation fees, no-show fees, letter writing, phone calls, and the like. The estimate is based on information known at the time the estimate was created. The Good Faith Estimate does not include any unknown or unexpected costs that may arise during treatment. If complications or special circumstances occur, you could request more services and then be charged more.

The client has the right to initiate the client-provider dispute resolution process if the actual billed charges are over \$400 more than the expected charges included in the Good Faith Estimate. You may contact Envision Counseling Clinic to let them know the billed charges are higher than the Good Faith Estimate. You can ask them to update the bill to match the Good Faith Estimate, ask to negotiate the bill, or ask if there is financial assistance available.

You may also start a dispute resolution process with the U.S. Department of Health and Human Services (HHS). If you choose to use the dispute resolution process, you must start the dispute process within 120 calendar days (about 4 months) of the date on the original bill. There is a \$25 fee to use the dispute process. If the agency reviewing your dispute agrees with you, you will have to pay the price on this Good Faith Estimate. If the agency disagrees with you and agrees with the health care provider or facility, you will have to pay the higher amount. To learn more and get a form to start the process, go to www.cms.gov/nosurprises or call the Health and Human Services at 1-877-696-6775.
